Rhayn Jooste Releasing 2nd Solo Guitar EP

Available digitally worldwide

On Saturday July 18, Rhayn Jooste will release his anticipated 2nd solo guitar EP – “Paris”; available to download worldwide.

The concept behind this 2nd EP first germinated on a trip to Paris: the idea was to capture the nostalgic feel to the *City of Light* on nylon strings. The song structures bring together Rhayn’s Classical guitar technique and his love of Jazz improvisation. The majority of the arrangements have been treated to an orchestral or big band setting and were recorded in a unique fashion in order to capture a vintage sound space on a digital canvas.

Guitarist, composer and teacher; Rhayn is a commercially aware musician with in-depth experience of the industry obtained through concerts and recordings; with extensive live experience having gigged as a solo classical guitarist and a bassist in successful headline rock bands. He has written or contributed to five commercial releases; along with being published in print and online. Currently he is Area leader for classical guitar within the Junior Conservatoire of the R.W.C.M.D.
